Syed Dayim Shah

Srinagar Jammu & Kashmir, India | +91-9541558025 | dayim1277@gmail.com | LinkedIn | GitHub

---

Highly motivated and detail-oriented data analyst with expertise in Python programming and a strong foundation in data manipulation, analysis, and visualization using Pandas, NumPy, Matplotlib, and Seaborn. Proficient in extracting insights from complex datasets and presenting them in a clear and concise manner. A quick learner with a passion for solving analytical problems and a strong commitment to data integrity and quality.

Experience & Internships

NIELIT
Intern
May 2023- June 2023

- Utilized Python frameworks such as Django, Pandas, NumPy, and Matplotlib to design and implement scalable applications.
- Worked on data processing and analysis tasks, applying Pandas and NumPy for efficient data manipulation and statistical computations.
- Integrated Django framework to develop web applications, implementing robust back-end functionality and seamless user experiences.
- Contributed to the team's success by actively participating in code reviews, debugging, and suggesting optimizations.

The Entrepreneurship Network
Remote
Software Developer Intern
Feb 2021- April 2021

- Conducted comprehensive software testing, identifying and resolving bugs to ensure optimal functionality and user experience.
- Implemented new features and enhancements to the company's website, improving its functionality and usability.
- Documented software testing procedures, test cases, and results, contributing to the overall quality assurance process.
- Collaborated with the development team to troubleshoot issues, implement fixes, and optimize website performance.
- Actively participated in team meetings and discussions, providing valuable insights and suggestions for process improvement.

Certifications

- Data Analysis with Python view
- Data Analysis with Python (IBM) view
- Data Visualization with Python view
- Python Crash Course view
- HTML, CSS and JavaScript for Web Developers view
- Front-End Web UI Frameworks and Tools: Bootstrap 4 view
- Scientific Computing with Python view

Education

July 2019 - July 2023

BTech in Computer Science & Engineering
Central University of Kashmir

Hard Skills

- Python
- MS Excel
- PowerBI
- Numpy
- Pandas
- Matplotlib
- MySQL
- Seaborn
- HTML/CSS
- Django
- JavaScript
- ReactJs

Soft Skills

- Communication
- Problem-solving
- Adaptability
- Time Management

Projects

- COVID-19 data analysis an Visualisation globally **View Project**

- Full Stack Event Management Web Application. **View Project**

- Full Stack Online Examination Management System. **View Project**

- Full Stack Car Dealing E-Commerce Website **View Project**

- Data Analysis on Polar Flow data set. **View Project**

- Data Analysis on Prices on Cracow Flats. **View Project**
